

# 341-485 Auto kick after 24 hours

## [341 Test Scripts](#)

ID	Description	Expected Results	Test Result	Notes
VB-485-0001	A moderator runs the edit command with all parameters	The role is watched for any users who gain it, with the notice period set		
VB-485-0002	A moderator runs the edit command without the notice parameters	The role is watched for any who gain it, without a notice period set		
VB-485-0003	A moderator runs the edit command with only the notice time parameter	An error is outputted, mentioning that both notice parameters need to be set		
VB-485-0004	A moderator runs the edit command with only the notice channel parameter	An error is outputted, mentioning that both notice parameters need to be set		
VB-485-0005	A user without kick perms runs the edit command	An error is outputted, mentioning that only moderators can run the command		
VB-485-0006	A user with the role has had the role for 24 hours	The bot automatically kicks the user		
VB-485-0007	A user with the role has been removed from the role before 24 hours is up	The bot will not kick the user when 24 hours is up		
VB-485-0008	A user with the role has had the role up until the notice period	The bot will send a reminder embed into <code>NoticeChannel</code>
